PROBLEM VS. SOLUTION

PROBLEMS

- Existing platform's data can be **manipulated**, accounts can be sold.
- Restriction for **minimum withdrawal** and require to go through long forms to become a seller.
- Dispute resolution is **biased** and sided with the buyers.

SOLUTION

A decentralized freelance platform with end-to-end encrypted chat assured by transparent governance.

Global Freelance Economy

“When decentralized blockchain protocols start displacing the centralized web services that dominate the current Internet, we'll start to see real internet-based sovereignty. The future Internet will be decentralized.”

– Olaf Carlson-Wee

Our Competitors

01 Ethlance

Ethlance is a first of its kind job market platform, built entirely on blockchain and using only cryptocurrency for payments

02 AnyTask

AnyTask is a centralised freelance platform based on Electronium allows users to enter an unbanked economy.

Competitive Advantage

Ranking

A hard to manipulate ranking system.

Privacy

A secure end-to-end encrypted chat mechanism.

Marshal

A community that acts as a Marshal is resolving the disputes via voting.

Data Storage

Pentonium, store no data, hence there is no registration or long forms to go through.
